Skills and interests

Possess knowledge in web development in the form of HTML, CSS & JavaScript, with specification in React, Three.js, React Three Fiber and Flutter. In graphic design, I have good knowledge in the Adobe programs Illustrator, Photoshop, After Effects etc.), also possess knowledge in 3D modeling and animation in the form of Autodesk Maya and Blender.

My interests are very much based on following football and everything around it. I like to keep myself active in the form of training at gym as often as I can. In addition to that I have a great interest in graphic creation and technical development, this is based on an early curiosity, but also something that has grown even more on me since I started studying in the subject.
