ABOUT ME

Technically minded and creatively oriented developer with around two years of professional experience. I hold a Bachelor's degree in Media Technology and Computer Science from Linnaeus University, where I developed my technical skills through studies, work experience, and personal projects.

One of my strengths is my versatility. I enjoy analyzing problems and identifying solutions that best fit the needs of the company and the project.

I thrive in team environments and enjoy collaborating with others. I am motivated by continuously learning new skills while also sharing knowledge with colleagues.

WORK EXPERIENCE

Full-stack Developer — 2025 -
Telinet Energi AB — Stockholm

Part of the development team, working with developing, testing, debugging, and implementing features for the company's website, application, and web apps. Contributing to the company's services through work with CI/CD pipeline integration.

Web Developer — 2024 - 2025
Work International — Stockholm

Worked with development and maintenance of the company website, as well as system integrations in WordPress to support marketing activities and customer flows.

Intern - Web developer & optimization — 2023 - 2024
Burde Publishing AB — Växjö

Maintained new features for the company e-commerce platform, and worked with new implementations through development, and data analyzation.

Logistics manager — 2020 - 2021
ACE Options AB — Stockholm

Responsible for the logistics and for the building of servers and customer contact of orders. This job gave me insight into working with IT products and IT companies in and how the industry works.

EDUCATION

Media Technology and Data Science — 2021 - 2024

Linnaeus University

Program: Interactive Media and Web Technologies
